

The Affordable Housing and Sustainable Communities Program

AWARDS PROFILE: SENATOR THOMAS UMBERG, SD-34

Established in 2014, the AHSC program invests in *integrated* affordable homes, transportation, and community greening projects that improve the economic well-being and physical health of lower income Californians while significantly reducing greenhouse gas (GHGs) emissions.

AHSC INVESTMENTS IN DISTRICT 34

\$15,953,626

NEW AFFORDABLE APARTMENTS AND FAMILIES HOUSED

127 / 1,397

Source: Round 1 and 2; SGC, Enterprise, and AARP

REDUCED GHG EMISSIONS

39,833 Metric Tons of CO₂

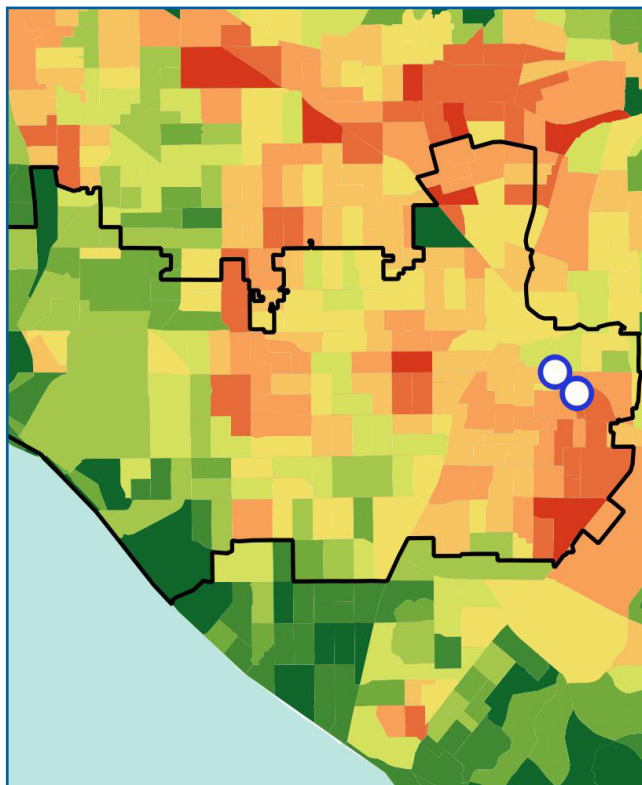

Source: Round 1 and 2; SGC

The AHSC program is a valuable investment in California's environmental and economic wellbeing. On average, a family living in an AHSC-funded development saves \$745 *every month* through reduced rent and access to transit.

AHSC investments are also central to achieving the statewide greenhouse gas reduction goals established by AB 32 and SB 375. The first three funding rounds will reduce car travel by approximately 134 million miles and result in 41,000 additional daily transit riders.

By building affordable homes near quality transit, AHSC reduces air pollution, improves public health, and increases connectivity and accessibility to jobs and education.

The AHSC program is administered by the Strategic Growth Council (SGC) and funded by the Greenhouse Gas Reduction Fund, which collects proceeds from cap-and-trade auctions.
